To whom it may concern,

I am copying Hutchinson Plant HR Manager, Hutchinson Site Director, and OHN in my responses. They are aware of the death of my granddaughter on March 1st, 2019, and her death was caused by her 6 month vaccines which caused a cytokine storm and she passed away 36 hours later.

You can follow up with them for proof of that. I know that I do not have to share this information and that none of you have any bearing on the approval of my exemption.

I am just legally covering myself.
